

# Pre-Calculus Honors Summer Homework Packet

Name \_\_\_\_\_ Period \_\_\_\_\_

Directions:

- The following problems are intended to provide a review opportunity prior to our study of Pre-Calculus. The problems can be found in Appendix A of your new text, Precalculus with Limits by Ron Larson and Robert Hostetler. The text that we will be using is published by Houghton Mifflin Company, 2007 edition, ISBN 0-618-66090-9.
- Please show all of your work in the completion of each problem. For problems labeled "(calc)" you may use your calculator.
- Please complete the problems in order and label them. Answers to odd problems are provided in your text.
- Please be prepared to turn in this packet on the second day of school.
- I will spend the first two or three days of class answering questions that you may have on this assignment.
- We will have two or three quizzes on this material during the first two weeks of class.
